

BLIND SPECIALISTS, LLC

Blind Specialist is a manufacturing facility for paddle blinds and blind flanges. With our full service machine shop we have the capabilities to cut and machine any size, class or material grade. With Our inventory of over 70,000 rental blinds located in a 15,000 square foot warehouse range from 1/2" to 60" from 150# to 2500#. Our blinds are color coded and stamped for easy identification and come available on a lockable rack or with lifting lugs for safe and easy installation and transport.

In-stock orders are available for same day shipping local or nationwide.

Our goal is to create life-long customers through quality and service.
